## Call for Papers: Workshop in AI+Economics

14 October 2022, ETH Zurich, Switzerland featuring keynotes by <u>Josh Blumenstock</u> and <u>Daniel Björkegren</u>

## **Submissions Form**

Submissions Deadline: July 15th, 2022

Technological developments in artificial intelligence as well as the availability of big data are transforming our economies by affecting decision-making both in the private and public sectors. Researchers in economics and other social sciences have also recently discovered the usefulness of applying machine learning methods, or mixing their use with more traditional causal inference tools, to address old and new research questions.

The **Workshop in Al+Economics** aims at bringing together researchers from economics and computer science interested in the development or application of Al methods in economics, and the application of economic analysis to Al technology. We encourage submission of works using machine learning, natural language processing, algorithmic fairness, econometrics, as well as causal inference methods to high-dimensional datasets. The goal of the workshop is to provide diverse feedback and support for projects at all stages.

The workshop will be held at ETH Zürich, Switzerland on October 14, 2022. The workshop is co-located with the Al Policy Summit on October 13th and the ETH Al Center's Al+X Summit on October 14th-15th. We are happy to host keynote talks on Al-for-policy research by Josh Blumenstock and Daniel Björkegren.

The event is planned to be mainly in-person at ETH Zurich, though there will be the possibility of remote participation via Zoom. Some funding is available for travel and accommodation expenses, especially for junior scholars.

<u>Submit papers or extended abstracts here</u>. The deadline for submission is **July 15th, 2022**. Questions can be addressed to Sergio Galletta at <a href="mailto:sergio.galletta@gess.ethz.ch">sergio.galletta@gess.ethz.ch</a> or Elliott Ash at <a href="mailto:ashe@ethz.ch">ashe@ethz.ch</a>. Please feel welcome to circulate this notice to potentially interested colleagues.
